EVENT BROCHURE

Welcome
to ACT Foundation's
Annual Conference
2026

About
ACT Foundation

Aspire Coronation Trust Foundation is an award-winning organisation that addresses development challenges and associated needs across the African continent through capacity strengthening, funding, and strategic project delivery with local and regional nonprofits and social enterprises to drive sustainable development.

We believe that lasting impact is not just built on great programmes. It is built on strong institutions. That is why our work goes beyond funding to help the organisations we support develop the systems, structures, and crisis preparedness they need to deliver consistently, attract donors, and sustain their impact long after any single grant cycle ends.

From institutional resilience and operational continuity to donor-ready infrastructure and systems strengthening, we invest in building organisations that are not just effective today but built to last.

Our **Vision**

To leverage relationships to create effective social impact solutions across Africa.

Our **Mission**

To build sustainable societies by engaging initiatives that unleash potentials and empower beneficiaries.

(Copyright @ 2026|ACT Foundation), (Privacy Policy |Terms of Service)

Focus Areas

Health

In line with the Sustainable Development Goal (SDG) 3, we aspire to ensure health and well-being, especially for the vulnerable and marginalized groups in society. We believe that if individuals live healthy lives, they can be empowered to lift themselves out of poverty and be productive members of society. We support an array of programs and initiatives that provide innovative and sustainable solutions in the areas of **Maternal and Child Health, and Non-communicable Diseases.**

Entrepreneurship

Sustainable Development Goal 8 reaffirms the need to promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all. Research shows that entrepreneurship contributes to building resilient infrastructure, promoting inclusive and sustainable industrialization and fostering innovation. As one of the fastest growing continents in the world, Africa must support entrepreneurship in order to provide access to goods and services, promote its economic growth, thus making a positive impact on communities and improving the well-being of the underserved populace. Our entrepreneurship interventions support initiatives that improve the livelihood of individuals and families through income generation and economic empowerment thus reducing poverty. Our focus is hinged on **Acquisition of Vocational and Digital Skills and Financial Literacy and Inclusion.**

(Copyright @ 2026|ACT Foundation), (Privacy Policy |Terms of Service)

Focus Areas

Environment

Climate change, air and water pollution, soil erosion, land and forest degradation are areas of global concern as these hinder efforts to achieve sustainable development. ACT Foundation is committed to supporting human activities that ensure access, availability and sustainable management of water and sanitation for all, make cities and human settlements inclusive, safe, resilient and sustainable and take urgent action to combat climate change and its impacts on vulnerable communities in line with SDG Goals 6 (Clean water and sanitation), 11 (Sustainable cities and communities) and 13 (Climate Action). We support programs and initiatives in **Integrated Waste Management, Access to Safe Drinking water, and Climate Action.**

Leadership

At ACT Foundation, our aim is to raise a new generation of credible, accountable and ethical leaders who will drive initiatives that promote effective and sustainable, economic and human development. Our focus is on the development of individuals (particularly young people and women) towards good governance, economic development, and organizational and professional development. Thus, we support initiatives aimed at **Youth Leadership, Thought leadership, and National Development.**

(Copyright @ 2026|ACT Foundation), (Privacy Policy |Terms of Service)

Our Approach:

Our desire to make an impact in our world is supported through capacity strengthening, direct implementation and grant making.

1. **Grantmaking and Fund Management:** We provide direct funding to nonprofits, community organisations, and social enterprises implementing high-impact work across our focus areas. Our fund management approach includes grant making, co-funding, sub-granting, and the Changemakers Innovation Challenge, ensuring that resources reach the organisations best positioned to drive change on the ground.

2. **Capacity Strengthening:** We go beyond funding to build the internal strength of the organisations we support. Through our Impact Readiness Programme, Organisational Resilience Accelerator, and Professional Volunteer Programme, we equip organisations with the systems, skills, and structures they need to deliver consistently, attract investment, and sustain their impact long after any single grant cycle ends.

3. **Knowledge and Learning:** We invest in building a stronger, more informed social sector. Through the ACT Knowledge Series, ACTPod, and our Annual Conference, we create platforms for peer learning, thought leadership, and the exchange of practical insights that strengthen the ecosystem around our grantees and partners.

Our Approach:

4

Strategic Partnerships and Co-Implementation: We work alongside governments, NGOs, private sector actors, and community stakeholders to jointly design and deliver programmes. We believe that lasting change requires shared ownership and that the most effective solutions are built collaboratively, not delivered from the outside in.

5

Direct Project Implementation: Where ACT Foundation has the strategic advantage, expertise, or unique positioning to do so, we design and implement projects directly. This ensures that critical gaps are addressed even where existing organisations may not yet have the capacity to lead.

6

Research, Evidence and Learning: We conduct and support research, evaluations, and learning activities to understand what works, document impact, and continuously improve our approach. This commitment to evidence ensures that our investments are informed, accountable, and adaptive.

A WELCOME MESSAGE FROM CEO

Dear Distinguished Guests, Partners, Leaders, and Changemakers,

It is my utmost honor and privilege to welcome you to the 2026 edition of the ACT Foundation Breakfast Dialogue.

A decade ago, we established the Breakfast Dialogue with a clear and resolute purpose: to create a dedicated space where leaders, innovators, and policy shapers could come together to confront Africa's most pressing socio-economic challenges with honest conversations and actionable solutions. Looking around the room today, I am deeply inspired by how far this platform has come and the lasting impact it continues to foster across the continent.

This year, our focus centers on a strategic priority that lies at the heart of Africa's sustainable development: "Skills to Scale: Empowering Young Enterprises for Sustainable Impact."

Across Africa, young entrepreneurs are demonstrating remarkable creativity, resilience, and ambition. They are designing solutions that address local challenges, creating employment, and driving economic activity. Yet, we know that great ideas alone are not enough to build enduring organizations. To transition from a promising concept to a scalable, sustainable business, young enterprises require robust support systems, practical leadership capabilities, access to funding, and conducive regulatory frameworks.

Moving from ideas to action requires an intentional, multi-sector approach. That is why today's dialogue brings together visionary leaders and experts across finance, technology, business governance, policy, and social impact. Together, we will unpack:

Osayi Alile

CEO, ACT Foundation

(Copyright @ 2026|ACT Foundation), (Privacy Policy |Terms of Service)

A WELCOME MESSAGE FROM CEO

- **Capital & Growth:** How to structure funding and financial mechanisms that support early-stage and growing enterprises.
- **Governance & Sustainability:** Building organizational resilience, institutional structures, and long-term capacity.
- **Policy & Ecosystem Building:** Fostering cross-sector partnerships and enabling environments that allow young businesses to thrive.

The Breakfast Dialogue has never been just about talking, but rather about catalyzing real transformation. Today is an invitation to engage thoughtfully, challenge existing models, share hard-won lessons, and establish meaningful partnerships that extend well beyond this room.

To our esteemed panel of speakers, keynote, partners, and every participant here today: thank you for bringing your expertise, energy, and shared commitment to this mission. Your dedication is what transforms vision into measurable impact.

I encourage you to participate actively, ask bold questions, and leverage every connection made today to build the ecosystem our continent deserves.

Thank you for being part of this gathering, and I wish you a deeply rewarding and transformative Breakfast Dialogue.

Osayi Alile

CEO, ACT Foundation

About Our **Funder**

Access Bank, a wholly owned subsidiary of Access Holdings Plc ("Access Corporation"), is a leading full service commercial bank operating through a network of more than 700 branches and service outlets, spanning 3 continents, 17 countries and 45 million customers. The bank employs 28,000 people in its operations in Nigeria and has subsidiaries in sub-Saharan Africa and the United Kingdom, a branch in Dubai, UAE and representative offices in China, Lebanon and India.

The Bank has over 900,000 shareholders, including several Nigerian and International Institutional Investors, and has enjoyed what is arguably Africa's most successful banking growth trajectory in the last 18 years. Following its merger with Diamond Bank in March 2019, Access Bank became the number bank in Nigeria and one of Africa's largest retail banks. As part of its continued growth strategy, Access Bank is focused on mainstreaming sustainable business practices into its operations. The Bank strives to deliver sustainable economic growth that is profitable, environmentally responsible, and socially relevant, helping customers to access more and achieve their dreams.

In honor of its defining roles across the African continent, Access Bank has been accorded recognition by reputable domestic and global organizations. Some of these recognitions include: 2021 African Banker Awards "Banker of the Year"; 2021 Euromoney Awards "Best Digital Bank in Africa"; 2021, Karlsruhe Sustainable Finance Awards "Outstanding Business Sustainability Achievement"; 2021, Global SME Finance Awards "Best Bank for Women Entrepreneurs ";2021 International Banker Awards "Best Commercial Bank, 2021 World Finance Awards "Most Sustainable Bank"; 2021 Global Brands Magazine Awards "Best Investor Relations Bank in Nigeria"; 2021 Global Finance Sustainable Awards "Outstanding Leadership in Green Loans" just to mention a few.

Event **Background**

Africa is home to a rapidly growing and youthful population; a powerful demographic dividend with the potential to drive enterprise growth, create sustainable livelihoods, and shape the continent's economic future. This year's Breakfast Dialogue, themed **"From Skills to Scale: Building the Ecosystems Africa's Young Enterprises Need to Thrive,"** responds to this opportunity. It seeks to explore how skills, finance, markets, innovation, and partnerships can work together to empower young people and small businesses to move beyond survival towards sustainable growth. Through a keynote address, insightful panel session, and masterclass, the conference will spotlight practical solutions, strengthen cross-sector collaboration, and identify opportunities to bridge the gaps between skills development, enterprise capability, and access to markets and capital.

This convening is designed to be a catalyst for action, equipping participants with practical insights, strategic connections, and collaborative opportunities needed to scale their impact. It will examine how government, businesses, financial institutions, and the social sector can build stronger ecosystems that support enterprise growth, expand economic opportunities, and create decent jobs. The conference aims to inspire a new era of collaboration where young people and enterprises are not merely recipients of support, but active drivers of Africa's economic transformation.

Keynote Address

From Potential to Opportunity: Building Africa's Next Generation of Enterprises and Talent

Africa has no shortage of entrepreneurial ambition, young talent or innovative ideas. The challenge is creating the systems that connect this potential to the capital, capabilities, markets, technology and networks required to create sustainable value. The keynote will establish the economic and social context for the Dialogue and challenge stakeholders to rethink how opportunity is created and scaled.

Keynote Speaker

Fela Durotoye
Founder/CEO, The GEMSTONE Group

Fireside Chat 1: Why Do Good SMEs Struggle to Grow

Many African SMEs demonstrate entrepreneurial potential but remain trapped at low levels of productivity and growth. The constraints extend beyond access to finance and may include weak management capability, limited market access, inadequate technology, informality, lack of reliable business data and insufficient networks.

This conversation will examine the growth journey of a young enterprise and identify where and why businesses become stuck. The discussion will bring together perspectives from entrepreneurs, investors, financial institutions, corporates and ecosystem intermediaries to explore topical issues in the sector.

Speaker:

Mezuo Nwuneli
Managing Partner, Sahel Capital.

Host:

Chinonso Clark
CEO/Founder of Lead For Good Africa

Fireside Chat 2: Beyond Grants & Training: Can the Social Sector Build SME Growth Infrastructure

Non-profits and foundations have traditionally supported economic opportunity through training, grants, entrepreneurship programmes and livelihood interventions. While these interventions remain important, the scale and complexity of Africa's economic challenges require a broader approach.

This session will explore whether the social sector can play a more strategic role as an ecosystem builder and connector. The conversation will examine how NGOs, foundations and intermediaries can create shared business and digital support infrastructure amongst others.

Speaker:

Dr Chinyere Almona
Director-General/ CEO, Lagos Chamber of Commerce and Industry

Host:

Em Ekong

Capital Conversation (A Panel Discussion): From Capital Constraints to Capital Readiness

Finance remains a major constraint for many SMEs, but simply increasing the supply of capital does not guarantee enterprise growth. This session will examine the relationship between capital, capability and enterprise readiness, bringing together entrepreneurs, investors, financial institutions and ecosystem actors. The session will also include a strategic panel featuring impact investment organisations.

Panelists

thank you!

for being part of the ACT Foundation Breakfast Dialogue. Today's conversations have reminded us that Africa's young enterprises have enormous potential, but potential must be matched with the right ecosystem the right skills, capital, markets, technology, networks and opportunities. Let us not allow the dialogue to end here. Let us continue to connect, collaborate, share knowledge, open doors and create pathways that allow young enterprises to move from survival to sustainable growth. May we continue to build not only stronger enterprises, but stronger ecosystems that enable African innovation and entrepreneurship to thrive.
